

## Accessories for CRUSH TESTER – RCT-CCT-ECT-PAT...

Applicable standards: ISO 13820 – DIN 53134 – DIN EN ISO 3037 – TAPPI T 839 ...

### For testing paper and corrugated cardboard samples.

Using the Crush Tester, the following tests devices and equipment for sample preparation are needed:

- |   |                    |
|---|--------------------|
| A - <b>C.C.T.</b> Holder (Corrugated Crush Test) and strip cutter or punch press (6"X1/2")  | <b>Code T-1370</b> |
| A.1 - <b>C.L.T.</b> Holder (Crush Liner Test) and strip cutter or punch press (6" X 1/2")   | <b>Code T-1371</b> |
| C - <b>E.C.T.</b> Fixture (Edge Crush Test) and pneumatic or electric sample cutter   | <b>Code T-1368</b> |
| C - <b>E.C.T.</b> TAPPI T839 fixture (Edge Crush Test) and pneumatic or electric sample cutter  | <b>Code T-6878</b> |
| D - <b>P.A.T.</b> Fixture (Pin Adhesion Test), with sliding pins to be adapted to different sizes of flutes<br>(Device for use without standards)                   | <b>Code T-1367</b> |
| E - <b>P.A.T.</b> holder assembly (Pin Adhesion Test) - Flute <b>A</b> (TAPPI T 821)  | <b>Code T-5332</b> |
| F - <b>P.A.T.</b> holder assembly (Pin Adhesion Test) - Flute <b>B</b> (TAPPI T 821)  | <b>Code T-6457</b> |
| G - <b>P.A.T.</b> holder assembly (Pin Adhesion Test) - Flute <b>C</b> (TAPPI T 821)  | <b>Code T-6458</b> |
| H - <b>R.C.T.</b> holder (Ring Crush Test) and a strip cutter or punch press 6" X 1/2"<br>(Is supplied with 3 discs - indicate thickness of the paper to be tested) | <b>Code T-1373</b> |
| I - <b>R.C.T. (Resort)</b> holder (Ring Crush Test) with resort, and strip cutter or punch press  | <b>Code T-6799</b> |

For **C.M.T.** the Medium flutter is needed for sample preparation and a strip cutter or punch press (6" X 1/2")

All tests are made by placing the paper or corrugated cardboard samples in each corresponding device, and placing them between the platens of the crush-tester.
